

Project WARM

We're committed to staying warm this winter.

Project WARM, a partnership between Friends for Life, itscool2care and The Midtown Spirituality Center, represents our unified response to address both human and animal needs.

Through Project WARM we are collecting cat supplies to help keep outdoor cats warm and fed this fall and winter, as well as gathering coats and blanket for Houstonians in need of some extra warmth this season. We are accepting donations throughout November, leading up to assembly and delivery parties in December.

Donate wet and dry cat and dog food and new or gently used blankets, coats, scarves, hats and mittens. You can also make financial contributions to pay for feral cat shelter materials.

You can also volunteer to assemble feral cat shelters at our assembly party on December 3rd or join us in delivering all of the supplies to Houston neighborhoods on December 5th.
