

Remote Project Support

Iron-on T-shirt Animal Adoption Campaign

ADOPT KAYLEE

ADOPTFriends4LIFE.org

Objective:

This awareness project spreads the word about our animals' stories, enhancing our message that every animal matters, and increases our exposure to potential loving homes.

Supplies:

Printer, Computer, and iron-on paper (available at most office supply stores), new or used blank t-shirt or fabric bag
OR Printer, Markers or Paint, and Copier, new or used blank t-shirt or fabric bag.

Details:

Make iron-on shirts (or bags) with pictures from our adoptable pets on our website, www.nokill1.org/adoption.htm Read thru their stories, drag a photo onto your computer and make a design with the animal's name, photo, and the web address, www.adoptfriends4life.org This may be done in any graphics program, done by hand and scanned, or in a word processing program like Microsoft Word, or Apple's Pages program. If you format the design to be 2 per page, you can keep the cost to 50 cents each. Make sure you "flip" or "mirror" the image horizontally so that it appears backwards before you print on iron-ons that require putting the image face down on the t-shirt.

Increasing Potential:

Take it to the next level by recruiting your friends, teammates, and/or schoolmates. Enlist others to make their own OR print extra iron-ons and pass them around, make sure the others learn the featured cat or dogs story so they can be educated campaign managers!
