

Remote Project Support at home or at school

Do you have an independent study, creative writing, math, art, or social studies project and would like to raise awareness and support a good cause while completing your project?

Chronicle of Pet Stories (creative writing and interviewing)

Objective:

This awareness project spreads the word that every animal matters, and allows us to deepen our enjoyment and appreciation of our animal companions.

Supplies:

Notebook, and a list of interview questions

Details:

Make a book of pet stories. Interview people to find out how animals in their lives brought them joy. Ask people about their favorite pets past and present, about funny animal stories they've heard, ask them to share their favorite habits and personality traits. Keep a journal of all of the interviews.

Increasing Potential:

Take it to the next level by recruiting your friends, teammates, and/or schoolmates. Enlist others to conduct their own interviews and create journals.
