

## Call for Volunteers Earth Day 09 Event Planning

An awareness, education and celebration created and organized by ENVI (environments need vast improvement)

Many teens and adults wish to eat less meat. This event will provide support and education for those looking for nutritional advice, a collection of vegetable recipes, samples of local restaurants' favorite vegetable dishes, and information about local youth and animal rights organizations that are working together to make a difference in small ways, every day.

Pick an area of interest and work with adult and youth volunteers

- Organizing restaurant vendors
- Collecting recipes/developing a cookbook
- Managing artists or supplying artwork
  - Creating/managing merchandise
    - Non-profit presentations
    - Managing youth drama and music performances
